Community Action Plan :

Lynda ran through the headlines from the findings of the recent community engagement. She had circulated the full research document before this meeting - this contains everything that was raised by contributors - issues, projects and priorities. In order to refine it into an accessible and easy to read "community development plan" for the area of Minginish, she required sign off on the themes ->priorities ->projects.

Those in attendance commented that they were disappointed that some of the local stakeholders had not been more involved in the community action plan.

The decision was taken to organise a follow up meeting with the community stakeholders to try one last time to get their opinions.

Date of next meeting -

A community development plan community meeting date will be organised. DC has annual leave coming up, so date/time tbc.
